## ***Season of Giving***

Dear Supporter,

**The Rochester Regional Community Design Center (RRCDC) is celebrating 7 years of service to the greater Rochester region!** Led by design professionals, we work with citizens, civic and business leaders, design specialists, municipalities and boards, and a variety of organizations and groups to encourage development that enhances the region's physical and cultural environment. ***We believe that communities are transformed by informed citizens.***

The **RRCDC** cares about the economic health, attractiveness and quality of our neighborhoods and towns. ***We provide access to design and planning resources that have a positive impact on our lives and our environment.***

**We offer:**

- **a community meeting place** where groups can meet, connect, discuss concerns and issues; work on solutions together;
- **a community gathering place** visited by hundreds of people each year who come to presentations, discussion groups and exhibits dealing with local land use and development;
- **a community information center** that shares data, expertise, advice and technical assistance;
- **a community design and planning resource** that works with citizens to translate principles of good urban design into vision and site plans;
- **a community education source** providing presentations, training, lectures and workshops focusing on thoughtful strategies for land use and development in our region;
- **a community advocate**, a voice to encourage awareness about the impact of design resulting in better quality, more sustainable development projects.

***Help us continue our work. Your tax deductible contributions make our projects, programs and initiatives possible!***

As a friend of the RRCDC you can play an active role in making a difference. We thank you for your support!

Sincerely,

Joni Monroe, AIA, CNU  
Executive Director
